WE'RE TAKING HYDRATION TO NEW PLACES.

FOR ALMOST TWO DECADES WE'VE BEEN PUSHING THE BOUNDARIES OF DESIGN & INNOVATION TO REDEFINE THE FUTURE OF HYDRATION. ATHLETES AROUND THE WORLD DEPEND ON OUR PRODUCTS TO PERFORM, SO THEY CAN PERFORM AT THEIR PEAK. THIS IS WHAT HAS DRIVEN US SINCE THE BEGINNING AND WILL CONTINUE TO TAKE US INTO THE FUTURE.

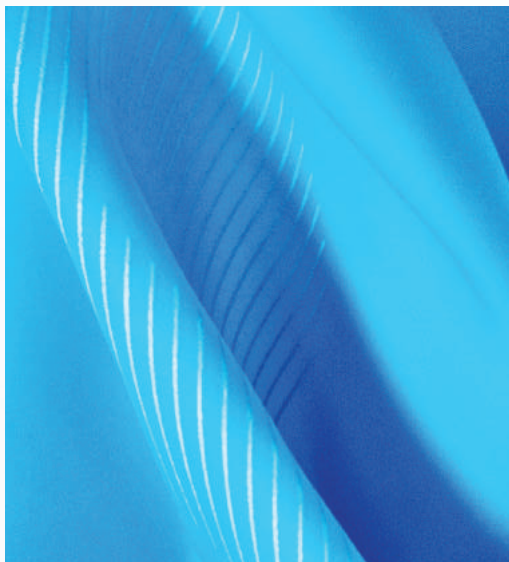

THE STANDARD FOR HIGH- PERFORMANCE HYDRATION

Materials & technology overview

TPU (THERMOPLASTIC POLYURETHANE)

Smart, safe & reliable

- 100% BPA & PVC free
- Superior elasticity & strength
- Lightweight
- Abrasion resistant
- Wide working temperature range

ADVANCED WELDING

High-strength & leak-proof

- RF (Radio Frequency) welded seams
- Bonds at the molecular level
- Consistent air tight seal

REVERSIBLE RESERVOIR

Easy cleaning & drying

- Patented Slide-Seal™ top simplifies filling
- Plug-n-Play™ quick connect system
- Shape-Shift™ locking / unlocking baffle

BITE VALVES

Self-sealing & smooth drinking

- Fast flow
- Soft bite
- High-grade silicone sheath

HYDRATION TUBING

Ultra-rugged, performance grade TPU

- Taste free TPU
- Optimal durometer for over the shoulder routing
- Hot weather and cold weather options

ULTRAFLASK™

When you're on the run, UltraFlask is ideal for quick hydration straight from the belt or vest. It shrinks as you drink to minimize water movement and it can be used with or without the tube. Ultra light weight, ultra useful.

TECHNICAL FEATURES

- 100% BPA & PVC free
- Soft material conforms to any pocket
- Ideal for hydration vest, belt or pack pockets
- Shrinks as you drink, reducing water movement
- 42 mm cap with removable drink tube and bite valve
- Use with or without tube (bite valve can be mounted directly to cap)
- Can be frozen or filled with hot water (max temp 60° C / 140° F)

ARCTICFUSION™ TUBE

Ice belongs on the mountain, not in your hydration system. That's why we created the ground-breaking ArcticFusion Tube Kit. This innovative solution is a premium tube system that helps keep water flowing in freezing temps. It has our Phaser bite valve on one end and the Plug-N-Play connector on the other, and it has 50% more foam insulation than competing brands.

TECHNICAL FEATURES

- 100% BPA and PVC Free
- Helps protect water from freezing in extreme temperatures
- Designed for a wide range of cold-weather activities
- Universal 6 mm / ¼ in diameter drink tube
- Phaser™ Valve: angled bite-valve with base cover
- Insulated valve cover
- Plug-N-Play™ Connector: quick disconnect for convenient tube removal
