RIVER

BIKEFISHING FOR STEELHEAD

OUR LATEST SHORT FILM FOCUSES ON BRIAN OHLEN, WHO IS COMBINING HIS PASSION FOR FLY FISHING WITH CYCLE TOURING. HIS TARGET IS THE ELUSIVE STEELHEAD, AND THE BICYCLE OFFERS A NOVEL WAY TO EXPLORE SEVERAL WESTERN RIVERS. STEELHEAD MAKE THEIR SPAWNING RUN IN THE DEAD OF WINTER, MEANING THAT BRIAN HAD TO BE PREPARED FOR THE COLD AND RAIN ALONG HIS ENTIRE ROUTE FROM VANCOUVER TO TIJUANA. THIS WINTER WAS ONE OF THE WETTEST SEASONS ON RECORD. BE SURE TO VISIT OUR WEBSITE TO SEE THE FILM AND FIND OUT HOW BIG THE FISH WERE.

'RIVER' WILL BE THE FIRST BLACKBURN OFFERING FROM A COLLECTION OF SHORT FILMS WE'RE CALLING 'THE WATER CYCLE.' EACH EPISODE WILL FEATURE A PERSON WE KNOW THAT IS NOT ONLY DEDICATED TO WATER IN THEIR OWN WAY, BUT ALSO USES A BICYCLE TO FAN THE FLAMES OF THEIR PASSION. LOOK FOR MORE FILMS THIS YEAR . . .

NEW TRADESMAN MULTI-TOOL

WHY HAS NO ONE INVENTED A MULTI-TOOL THAT REMOVES CHAIN QUICK LINK? OH WAIT, WE HAVE. ALL THE HEX AND TORX KEYS YOU'RE EVER GOING TO NEED IN A PORTABLE TOOL, WITH THE ADDITION OF A DISC PAD SPREADER AND A TOOL THAT'LL REMOVE THE STUBBORNEST QUICK LINKS.

QUICK LINK TOOL - Link quick-links quicker. Our unique tool allows you to safely and quickly split quick links on the trail. Something that even a Boy Scout would have a hard time improvising a tool for.

QUICK LINK STORAGE - No one wants half a quick link. Our integrated storage for a spare link saves you losing half in the bottom of a bag somewhere.

SPREAD 'EM - An accidental squeeze of a brake when the wheel is out is all it takes to get your brake pistons stuck. Luckily our pad spreader saves the day and keeps you drag-free.

L-SHAPED TOOLS - Power to your elbow. A full set of hex key sizes includes L-shaped 2, 2.5 and 4mm tools for all of those hard-to-reach bolts that always come loose when you're not looking.

- 18 Functions
- Hex tools: 2, 2.5, 3, 4, 5, 6, 8mm
- Torx: t25, t30
- Flathead screwdriver
- P/V core tool
- Chainbreaker compatible with 12spd and fewer gears

PLUGGER TUBELESS TIRE REPAIR KIT

THOSE GUYS WHO SAID 'TUBELESS TIRES NEVER GET PUNCTURES'? THEY LIED. A QUICK, ONE-SHOT TIRE PLUGGING SYSTEM FOR TUBELESS TIRES. DEPLOYS IN SECONDS TO GIVE A PERMANENT FIX FOR YOUR FLAT. MOUNT IT TO YOUR FRAME, TAPE IT TO YOUR TOP TUBE, OR STRAP IT TO YOUR ANKLE LIKE A SHARK KNIFE. JUST KEEP IT CLOSE AND IT'LL GET YOU OUT OF TROUBLE. PRONTO.

FLAT TIRE NINJA - A quarter turn is all that's needed to release the tool from its holster.

FRAME STRAP - Help is at hand. Strap the holster to the top tube with the included strap, tape it to your seatpost, zip-tie it to a fork leg. Whatever works best.

PLUG STORAGE - The tool's handle can store up to 10 spare plugs.

• Kit includes: Plugger tool, holster, strap, 10 plugs

COUNTDOWN 1600 HIGH LUMENS DIGITAL GAUGE LIGHT

MOUNTAIN BIKING AT NIGHT CAN BE A MAGICAL EXPERIENCE THAT TRANSFORMS YOUR FAMILIAR TRAILS INTO AN ENTIRELY DIFFERENT WORLD. WE SEEK TO KEEP THAT MAGIC ALIVE BY MAKING SURE YOU KNOW EXACTLY HOW MUCH BATTERY IS LEFT, SO THAT YOU AREN'T STUCK IN THE DARK WITH A DEAD LIGHT. THE COUNTDOWN 1600 HAS AN EASY TO READ BACK-LIT DISPLAY THAT TELLS YOU EXACTLY HOW MANY MINUTES OF LIGHT REMAIN IN EACH OF THE 6 POWER MODES.

1600 LUMENS OF OFF ROAD POWER

COUNTDOWN LOGIC - This light features a super-bright Blitz mode, plus High, Medium, Low, Pulse and Strobe modes. A back-lit display counts down minutes of battery life remaining, according to each mode. When the light is on, push the power button quickly to toggle between the current mode and Blitz mode. Hold the power button to turn off in any mode, and the light remembers this mode when turning back on. To lock/unlock power button, with the light powered off, hold down both left and right arrow buttons for 2 seconds.

IP-67 WATERPROOF - Ingress protection rating or 'IP Rating', is a techy way to describe the level of water and dust proofness a product has. This light meets the IP-67 Standard, which means it is totally protected against dust/grit and can also withstand being submerged in up to 1 meter of water for as long as 30 minutes..

OFF ROAD MOUNT - Designed to be extremely steady and robust, yet sleek enough not to take up all the real estate on your handlebar. Quickly installs using aluminum thumb screw on bar sizes from 22.2 to 35mm.

EXCELLENT SIDE VISIBILITY - Built-in design features channel a bright hit of light to each side, providing visibility to cross traffic.

FAST CHARGE - Fully charges in 4 hours with a 2A charging port and 8 hours with a 1A charging port.

ALUMINUM CONSTRUCTION - A lightweight and tough material for extra durability and a timeless look.

- Charging cable included
- No tools required
- Lithium ion battery
- 240 grams

SUPER-SIZED
2'FER-XL
IS A "TO SEE"
FRONT LIGHT
& A POWERFUL
REAR LIGHT.

Photos by Josh Sawyer

NEW

2'FER-XL FRONT OR REAR LIGHT

THE 2'FER-XL IS THE BIG BROTHER OF OUR POPULAR 2'FER LIGHT. THIS LIGHT WORKS HARD, PULLING DOUBLE DUTY AS EITHER A 200 LUMEN FRONT OR A 40 LUMEN REAR LIGHT, DEPENDING ON YOUR NEEDS. THE CLEVER MOUNT DESIGN LETS YOU EASILY POP IT ONTO YOUR BIKE'S HANDLEBARS OR SEATPOST, BUT ALSO HAS A CLIP TO MOUNT IT ON YOUR BACKPACK OR BELT.

200 LUMEN FRONT OR 40 LUMEN REAR

FRONT OR REAR CAPABLE - With the push of a button, this light can switch between a white front light and a red rear light. Holding the button for 2 seconds turns the light on and off, and pushing the button once changes modes between white solid, red solid, white flashing and red flashing. The light also remembers which mode you were last using and turns on in that mode.

IP-67 WATERPROOF - Ingress protection rating or 'IP Rating', is a techy way to describe the level of water and dust proofness a product has. This light meets the IP-67 Standard, which means it is totally protected against dust/grit and can also withstand being submerged in up to 1 meter of water for as long as 30 minutes.

OPTIMIZED LENSES - This light features lenses that work to tell drivers "hey, I'm here", but also focuses the right amount of light so that riders can clearly see where they are going.

UNIVERSAL LIGHT MOUNT - The mount can be configured at a 90° angle or 72° angle for handlebar, seatpost or seat stay use.

MICRO-USB RECHARGEABLE - Charges via any standard USB port. Cable included.

LED FUEL GAUGE/CHARGE INDICATOR - A small built-in LED light indicates the battery level. Green = >75%, Orange = 75-25%, Red = <25%

ALUMINUM CONSTRUCTION - A lightweight and tough material for extra durability and a timeless look.

- Lithium ion battery
- 3 hours recharge
- No tools required

PUMPS

QUICK,
RELIABLE
TUBELESS
INFLATION!

Blackburn 

NEW

CHAMBER TUBELESS FLOOR PUMP

IF YOU'RE A TUBELESS TIRE CONVERT, YOU'LL WONDER HOW YOU LIVED WITHOUT THIS PUMP. JUST PRESSURIZE THE CHAMBER AND WITH A SIMPLE FLIP OF THE BURLY SWITCH, ALL THAT AIR FLOODS THE TIRE, GIVING IT NO OPTION BUT TO SEAL AND AIR UP. ONCE SEATED, FLIP THE SWITCH BACK TO BYPASS THE CHAMBER AND YOU CAN TOP IT OFF ACCURATELY WITH THE GIANT GAUGE.

GET BIG AIR, EASILY!

TUBELESS SEATING - Quick, reliable tubeless inflation. Now everyone can seat tubeless tires without a garage full of compressors and hoses.

CHARGE SWITCH - The two-position switch means you're charging or you're inflating. Charge the chamber, position one. In position two, that air is forced into the tire. You can now use the Chamber like a regular floor pump.

DIRECT PUMPING - No more hot air. Once you've seated your tire, the switch bypasses the auxiliary air chamber and the direct-to-valve technology lets you pump the tire instantly, without going through the chamber all over again.

HOLD TIGHT - A riser bar with comfortable grips comes stock, but a regular 31.8mm stem clamp allows you to fit your favourite handlebar for welcome familiarity and sneaky training.

STAND BACK - No one likes being right next to an inflating tubeless tire, do they? Our 4ft hose lets you keep out of the way, while also allowing you to inflate tires whether they're on a hitch rack, repair stand or around the corner.

AVIATION GAUGE - Our huge 2.75in top-mounted gauge lets you easily read the pressure without stooping.

AIR BLEED - Button on the pump head lets you micro adjust pressure.

ANYVALVE HEAD - Works on any type of bicycle valve with the flick of a lever. No leaking, no fuss, clean and simple.

- 160 PSI reservoir
- Aluminum barrels / steel base
- Presta, Schrader, Dunlop

#7085522

MSRP: \$149.99

SMALL AND
WICKEDLY
POWERFUL
MTB PUMP +
VALVE CORE
TOOL.

Photos by Josh Sawyer

NEW

CORE MINI-PUMP

THE PULL-OUT HOSE PUTS LESS STRESS ON THE VALVE. AND YOU WEREN'T STRESSED TO START WITH. IT'S ALL VERY WELL HAULING A GIANT PUMP AROUND, BUT ALL THAT LEVERAGE CAN SNAP A DELICATE VALVE STEM RIGHT OFF. OUR PRESTA-ONLY HEAD SITS ON A SHORT PULL-OUT HOSE TO GIVE MORE OPTIONS ON WHERE YOU PUMP FROM AND FEWER CHANCES OF YOUR RIPPLING MUSCLES PULLING THE THING CLEAN OFF. WE WEREN'T USING THAT SPACE IN THE BARREL ANYWAY, SO THE HOSE DOESN'T EVEN AFFECT THE PUMP'S EFFICIENCY.

FASTER INFLATION - The mid-size barrel diameter allows for quicker inflation on MTB, CX and gravel bikes.

PRESTA VALVE TOOL - Get loose on the trail. You can if you want, but your valves shouldn't. There's a machined Presta valve core tool right in the pump's base to keep everything snug.

THREAD-ON DESIGN - Hold on tight. The thread-on Presta valve at the end of the extending flexible hose ensures that even the fiddliest of valves is held securely for inflation.

COMPACT DESIGN - Is that a pump in your pocket? Fits easily into a jersey pocket, but also will nestle unobtrusively next to your bottle cage so you'll never leave home without it.

- Works with Presta, Schrader, & Dunlop valves
- 90 PSI
- 127g

Blackburn

NEW

CORE SLIM MINI-PUMP

WE PUT THE CORE PUMP ON DIRT, AND OPTIMIZED IT FOR ROAD, CROSS, GRAVEL.

HIGHER PRESSURES - This pump can handle the pressure. The smaller diameter barrel ensures that high pressures are easy to reach. Perfect for road, cyclocross or gravel tires (whatever those are).

PRESTA VALVE CORE TOOL - Get loose. You can if you want, but your valves shouldn't. There's a handy, machined valve core tool right in the pump's base to keep everything snug.

THREAD-ON DESIGN - Hold on tight. The thread-on Presta valve at the end of the extending flexible hose ensures that even the fiddliest of valves is held securely for inflation.

COMPACT DESIGN - Is that a pump in your pocket? Fits easily into a jersey pocket, but will also nestle unobtrusively next to your bottle cage so you'll never leave home without it.

- 120 PSI
- 104 g

MSRP: \$34.99

UNFOLD, FLIP
AND PUMP.
IT'S A
PORTABLE
FLOOR PUMP.

Photos by Josh Sawyer

NEW

MAMMOTH FLIP MINI-PUMP

UNFOLD, FLIP, PUMP, SAVE THE DAY, BE ON YOUR WAY. WITH A FOLD-OUT HANDLE AND FLIP-OUT FOOT-PEG, IT'S A PORTABLE FLOOR PUMP. POWERFUL ENOUGH TO WORK ON BOTH MOUNTAIN AND ROAD TIRES FOR QUICK INFLATION. GET YOUR RIDE BACK ON TRACK BEFORE ANYONE'S EVEN NOTICED.

FLIP OUT - Why make it any harder? Tire pumping is hard work. By resting one end of our Mammoth Flip pump on the ground, you're no longer fighting against yourself and can use both hands to stabilize and work the fold-out pump handle.

FLEXIBLE HOSE - Don't be a slave to the valve. The flexible hose lets you work on the bike whether upright or dead on the trail, while the secure cam-lock head ensures no nasty blowing off when you least expect it.

T-HANDLE - Save your energy for the trails. The fold-out T-handle gives you maximum leverage with little effort.

ALL TIRE SIZES - Fills all tire sizes easily. Make new friends by quickly inflating everything from fat bikes to gravel bikes. Or just hide it in your bag and keep quiet... ahem.

- 90 PSI
- Air-bleed button
- Includes frame mount
- 198g

CAN YOU
TELL THE
DIFFERENCE
BETWEEN
15PSI AND
17PSI?

NO YOU CAN'T.
WE CAN'T
EITHER, BUT
OUR DIGITAL
GAUGE CAN.

Photos by Josh Sawyer

Actual size

NEW
HONEST
DIGITAL PRESSURE GAUGE

TODAY'S WIDER, LOWER PRESSURE TIRES ARE MORE PRESSURE-CRITICAL THAN BACK WHEN WE JUST USED TO PUT IN AS MUCH PRESSURE AS THE PUMP COULD STAND. IT'S NOT ABOUT FENDING OFF FLATS THESE DAYS, IT'S ABOUT GRIP. AND THE DIFFERENCE BETWEEN TOO MUCH AND NOT ENOUGH CAN BE AS LITTLE AS A COUPLE OF POUNDS OF PRESSURE. THE DAYS OF 'GIVING IT A SQUEEZE' ARE OVER. YOU NEED OUR HELP.

SWIVEL HEAD - It's hard enough getting the perfect tire pressure without craning your neck to see what the gauge says. Our swivel head is visible at all angles.

DUAL HEAD - Don't mix the streams. A dual-sided Presta and Schrader valve head sidesteps the need to swap hardware when all you want to do is check your tire pressure.

BACK-LIT DISPLAY - All hail the glowing screen. The back-lit screen is easy to see whether checking tires on a dawn raid, or just fumbling around in the garage.

AUDIBLE - Is it done yet? An audible chime lets you know when you're powered on, and when pressure is registered, so you're not standing around, waiting like a lemon.

- 1-150 PSI
- Accurate within 1%
- Air-bleed button
- Schrader valve deflator

UPDATED
AIRSTIK 2STAGE
MINI-PUMP

THE AIRSTIK 2STAGE IS A DURABLE ALUMINUM PUMP WITH ENOUGH PUFF FOR MOUNTAIN BIKE TIRES AND ENOUGH PRESSURE FOR ROAD TUBES TOO, THANKS TO THE TWO-STAGE HIGH PRESSURE/HIGH VOLUME SWITCH. PRESTA ONLY THOUGH – WHAT ARE WE, EIGHT YEARS OLD AND RIDING HUFFYS?

2STAGE TECH - Goes both ways! Whether you ride on road, off-road or somewhere in-between, the Airstik switches easily between high volume and high pressure to suit your pumping needs.

PRESTA-ONLY HEAD- Who is this Schrader anyway? Fewer and fewer folks are running schrader valves, so we've made this pump with a push-on, Presta-only head for easy use.

ALUMINUM CONSTRUCTION - A lightweight and tough material for extra durability and a timeless look.

FRAME MOUNT - Even the best pump won't do you much good if you've left it in your sock drawer at home. This pump comes with a discreet frame mount that attaches under your water bottle cage.

TRAINERS

OUR RACE-READY FLUID TRAINER FOLDS UP AND PACKS INTO A CARRYING CASE ABOUT THE SIZE OF A LARGE CHIHUAHUA.

Photos by Josh Sawyer

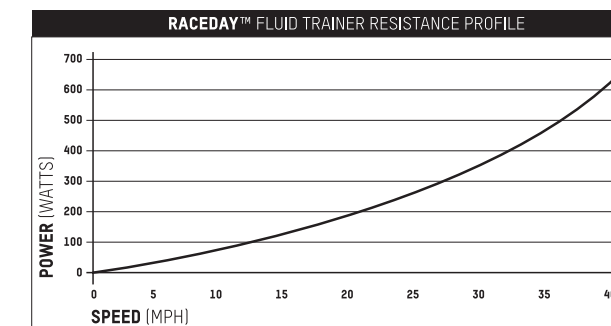

NEW

RACEDAY PORTABLE TRAINER

WEIGHING IN AT UNDER 15 POUNDS, THIS MIGHT BE THE MOST PORTABLE FLUID TRAINER IN THE MARKET AND IS PERFECT FOR RACE WARM UPS, TRAINING & INTERVAL CLASSES OR IF YOU HAVEN'T YET PUT A DOWN PAYMENT ON THAT MANSION AND NEED THE SPACE IN YOUR APARTMENT.

FLUID RESISTANCE - Each of the two rollers on this trainer have built-in fluid technology, that add up to 650 watts of smooth and quiet resistance, making sure your workout is as tough as you want it to be.

SMALL IS SMART - Designed to be able to take it with you, we've put a lot of thought in how to minimize the size. Not only is this easier for travel, but it stays out of the way when you aren't using it.

TELESCOPING - The legs and wheel base have telescoping adjustments to fit all sorts of sizes and breeds.

AXLE COMPATIBILITY - works with standard 9mm front QR axles, and includes adapters for 12 and 15mm through axles, accommodating 100 and 110mm widths.

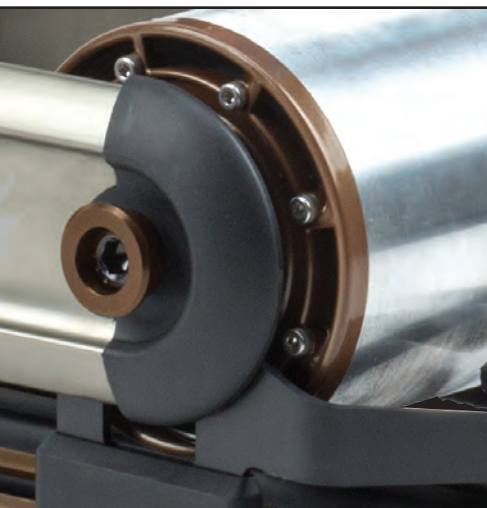

MULTI-WHEEL COMPATIBILITY - Compatible with most road and mountain bike wheel sizes. This includes the diameters 20", 24", 26", 650b, 700c, 27.5" and 29" and widths from 23c up to 2.3".

QUIET - We've designed this product to not wake up sleeping babies or anyone else in the house.

- Includes storage bag
- No tools required
- 14.3 lbs

MSRP: \$399.99

THRU AXLES
ARE RAD,
THERE IS NO
DENYING IT.

THEY DON'T
ALWAYS PLAY
WELL WITH
TRAINERS OR
TRAILERS.

NEW

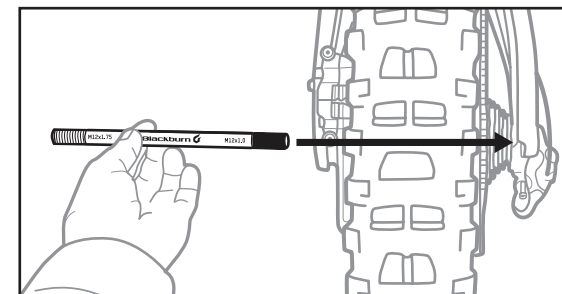

TRAINER & TRAILER ADAPTER

OUR AXLE CONVERSION KITS MAKE YOUR THRU AXLE BIKE
COMPATIBLE WITH MOST TRAINERS AND MANY TRAILER
HITCHES ON THE MARKET.

COMPATIBILITY -The adapter kit is designed to turn your
12mm x 135mm, 142mm or 148mm thru axle bike into a
trainer-ready machine or a trailer-pulling family explorer.

TRAILER -Turn your rear thru axle hub bike into a family-
wagon. Replace your current thru axle on your bike with the
Blackburn adapter and install by tightening down the end
cap of the adapter against the hitch. Compatible with most
bike trailer hitches in the market.

TRAINER - Planning to use your rear thru axle bike on your
traditional magnetic or fluid trainer? Our adapter kit will
quickly convert your bike into the training machine you've
been wanting.

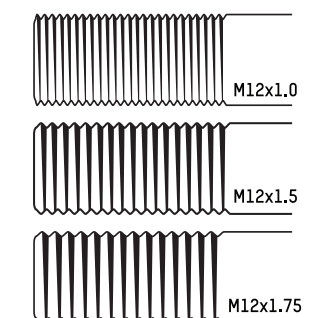

HOW TO CHOOSE - Choosing the correct axle is simple.
First, research which axle spacing your bike utilizes (135,
142 or 148mm). Next, choose the correct thread pitch by
either comparing your thread spacing to the thread scale
on our packaging -OR- by matching to one of the brands
listed below:

- RockShox Maxie – 1.75mm thread pitch
- Syntace X-12 – 1.0 thread pitch
- DT x-12 – 1.0 thread pitch
- Shimano E-Thru – 1.5mm thread pitch
- DT E-Thru – 1.5mm thread pitch

M12 X 1.0MM & M12 X 1.75MM
#7085267

M12 X 1.0MM & M12 X 1.5MM
#7085266

MSRP: \$49.99

TREAT YOUR
HANDS TO A
PLUSH RIDE.

Photos by Josh Sawyer

New CINCH BAR TAPE

THE 3.2MM-THICK GEL BACKED TAPE, WHICH USES A UNIQUE COMPOUND AND TEXTURE, GIVES YOU AN UNFALTERING GRIP ON YOUR BIKE, WHETHER OR NOT YOU ARE WEARING GLOVES. THE WEDGE/BOLT BAR PLUGS WON'T EJECT ON ROUGH ROADS AND STILL WILL BE THERE AT THE END OF YOUR RIDE.

- Tacky surface prevents hands from slipping
- Topographic design
- Soft gel backing reduces road chatter
- 112 grams
