

2018 Giro Cycling Gloves

The Bravo & Tessa

More reasons to love Giro's most popular gloves

The Bravo™ and Tessa™ are Giro's most popular gloves, and we've updated the design to make them even better—without changing any of the things you already love. These gloves continue to feature optimized gel padding and Giro's exceptional Super Fit™ ergonomic design, which reduces bunching and discomfort while enhancing grip, bar feel and the effectiveness of the padding.

Bravo Gel

Bravo Gel LF

2018 Giro Cycling Gloves

The updated design features a more technical construction that improves comfort, reduces weight and holds less moisture. The Velcro closure is now larger, so it is easier to open and close, while remaining low-profile. We redesigned the cuff to eliminate the binding material, making it more streamlined against your wrist to improve comfort. The short-finger glove options also feature reflective finger pulls to increase visibility and make the gloves easy to remove.

Tessa Gel

Tessa Gel LF

The Bravo and Tessa collections offer both short-finger (Bravo Gel, Tessa Gel) and long-finger (Bravo Gel LF, Tessa Gel LF) options for riders who prefer the feel of a more traditional padded glove, with comfort and performance that rival gloves costing twice as much.

LX LF

Ride in the grip of luxury

The LX™ LF extends the craftsmanship, style and unmatched feel of premium leather road gloves to a new standard of fit and feel. Woven wool flex panels, Technogel® padding, reflective details and supple leathers combine to create a truly modern classic that's built for comfort. The redesigned and simplified upper improves comfort with a clean, classic look. Integrated Touchscreen Technology™ means you can stay in touch without removing your gloves.

Remedy X2

For the roughest conditions

The Remedy™ X2 is made for the demands of aggressive trail riding and downhill, with full hand protection and optimal breathability. Several key technologies set the Remedy X2 apart – Poron® XRD™ armoring keeps the knuckles and heel of the hand protected and the AX Suede™ synthetic leather keep these gloves flexible yet durable. The Remedy X2 boasts exceptional bar feel thanks in part to the three-panel Super Fit™ engineered palm, and the 4-way stretch mesh upper keeps your hands cool, even with the added protection.

Inferna

Cool weather warmth for women

The Inferna™ is a brand new women's glove for cool weather riding. It features a Polartec® Windbloc® backhand with a microfleece lining, which offers high dexterity while maintaining warmth. The new Ax Suede™ Echo palm absorbs little moisture and is lined with fleece for warmth. Reflective screen print polka dots across the entire backhand offer stylish visibility. As the temperatures get cool, the Inferna will let you keep your riding season going in comfort.
